

Construction Update – 20th February 2018

This notification is regarding the next Tower Crane Installation for Building 2.

On Wednesday 21st and Thursday 22nd February 2018, Mirvac will be installing the forth Tower Crane for the development on Lot 12 (Building 2) at Australian Technology Park. We will be using the existing cranes to install this new crane, hence no mobile crane is required. The components for the crane will be delivered on trucks that will enter the precinct via Davy Road and out Garden Street.

There will be exclusion zones and traffic changes in place on Central Ave during lifting operations. Public pedestrian access will be maintained on Central Ave and access to existing carparks and loading docks will also be maintained.

The works are scheduled to be completed by Friday 23rd February, however progress could potentially be delayed due to unforeseen circumstances such as inclement weather.

If you have any questions or concerns, or if you require more information, please contact me at atp.communications@mirvac.com or call 1800 870 549.

Kind regards, Kim
